PC version & Mac
Version

Contents Page

- PC Download guide - 2
- MAC Download guide - 5

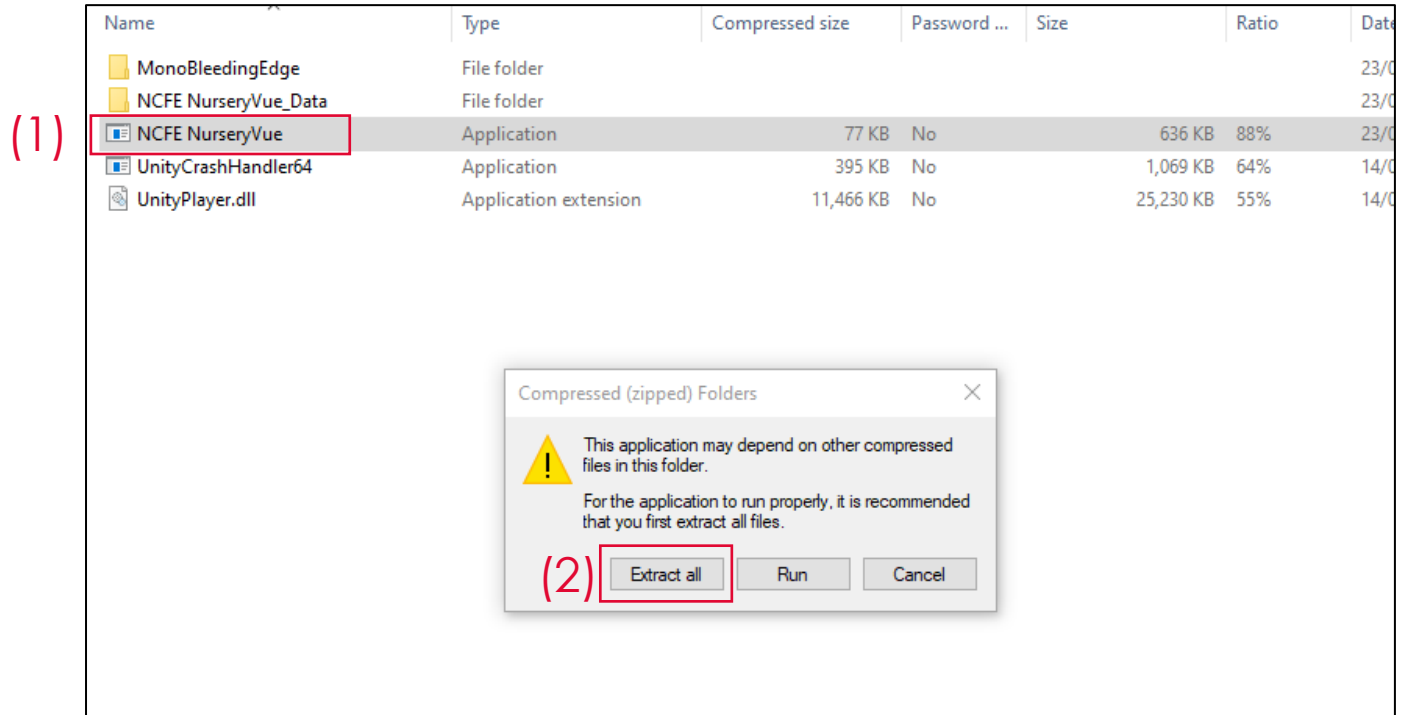

PC version: Download instructions 1/2

3

You can download the PC version of NurseryVue from the [CACHE Download Page](#).

Open the downloaded folder on your computer and double click on *NCFE NurseryVue* (1).

A pop up will appear. Please double click "Extract all" (2).

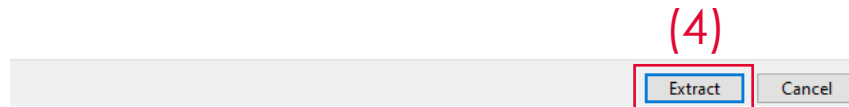

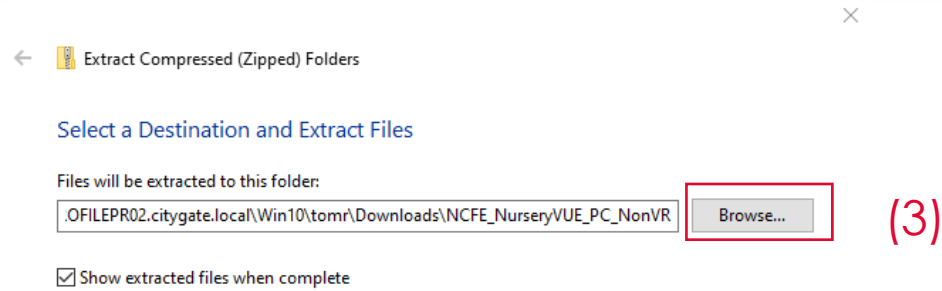

PC version: Download instructions 2/2

4

You will be given the choice to *browse* where on your computer the NurseryVue should be saved to (3). After this please select *extract* (4).

Once extracted (which may take a few seconds), please then open the folder you have extracted it and double click on *NFCE NurseryVue* to begin the application (5).
